CAPABILITIES GUIDE

ENTERPRISE OVERVIEW

Puxbay is an enterprise multi-tenant cloud commerce ecosystem uniting physical retail checkouts, turnkey e-commerce, automated direct merchant payouts, warehouse logistics, and customer intelligence.

1. Intelligent Point of Sale (POS) & CDS

- **High-Throughput Scanning:** Camera-based QR & hardware laser barcode detection (<100ms lookup).
- **Multi-Tender Split:** Split across Cash, Visa/Mastercard, MoMo, QR Scan, and Gift Cards.
- **100% Offline Resilience:** Local IndexedDB queues sales during internet outages; auto-syncs on reconnect.
- **Customer Display (CDS):** Instant dual-screen broadcast of cart items, promos, and customer wallet.
- **Cash Drawer & Shifts:** Opening float, cash drops, shift drawer auditing, and instant Z-Reports.

2. Paystack Subaccounts & Direct MoMo Settlements

- **Direct Payouts (0-Day):** 100% of customer funds route straight to the merchant's bank/MoMo (**bearer : subaccount**).
- **African Mobile Money:** Native support for MTN MoMo, Telecel Cash, AT Money & Bank Cards.
- **Dynamic Scan-to-Pay QR:** Real-time Paystack QR codes rendered directly on POS screen.
- **5-Step Setup Wizard:** Instant automated bank account verification & merchant registration.
